Below made a confession some time ago.

Rose Sharp Case.

Fond du Lac, Wis., March 9.—P. H. Martin, of Green Bay, will remain in the case of the state against Rose Sharp, of Oconto, Judge Kirwan having ruled to that effect. The charges made by Rose Sharp in a petition that she was employed by societies in Oconto to prosecute the case, were held to be groundless by the court. It developed yesterday that Gen. E. S. Bragg, of this city, is with Charles Felker, of Oshkosh, in defending Mrs. Sharp. James J. Gill, the district attorney, of Oconto, is an able lawyer and the legal battle which is to be taken up on March 20th promises to be one of the hardest fought in the history of the court in Fond du Lac.

An order has been handed down by Judge Kirwan, appointing ex-District Attorney H. E. Swett as one of the prosecuting attorneys in the trial of the Prinslow murderers.

Mr. Ehle's new boat, the Carejon, was bought in Madison with the express intention of clipping the wings of the McKey flyer, Lily of the Lake. The Carejon is from a crack Madison builder and though small is very fast.

The race was sailed round a triangular course, starting from the front of the Carejon club house. Three times around the course made a distance of thirty-five miles. The Carejon won in fifty-nine minutes and fifteen seconds.

One five mile run with one passenger was made in eight minutes and a three mile run was made in 2:40.

NAVAL FORCES ARE CONCENTRATING

WAR SHIPS GATHERING IN THE FAR EAST.

Two British Cruisers at Gibraltar Have Received Orders to Proceed to China and All Available Ships Will Be Hurried to the Far East.

London, March 9.—[Special]—All the powers are concentrating their naval forces in the far east. England has thirty-three gun war ships; Russia has fourteen; France nine; Germany eight, and Italy four.

Gibraltar, March 9.—[Special]—Two British cruisers that were coaling here received orders to proceed to China at once. It is understood that all available British warships will be hurried to the far east.

London, March 9.—[Special]—The queen didn't start for France today, owing to the rough sea. She departs next Saturday.

London, March 9.—[Special]—The gravity of the situation in the far east is indicated by the intention of a liberal member to move for an adjournment of the house in order to call attention to the crisis in China. There is talk of questioning the government on what its present eastern policy is, but this proceeding will probably be frowned down, owing to the embarrassment it would cause the foreign office. The general impression here is the Chinese question is coming to a head. Some of the newspapers fear that the long pending Anglo-Russian conflict will be precipitated by the attempt of Russia to have China repudiate the Nee Chwang railroad contract.

The Hague, Holland, March 8.—[Special]—The date for the opening of the czar's peace conference, which is to be held here, is set for May 18.

China Offers an Apology.

France Is Watching Germany.

Paris, March 9.—In the chamber of deputies Wednesday the debate on the army budget led to the usual references to the necessity for preparedness against Germany and to comparisons of the two armies. The members of the house, while complaining of the budget, which aggregates 875,000,000 francs, admitted the impossibility of retrenching, in the face of necessity of meeting German increases by corresponding additions.

U.S. TROOPS LAND AT ISLAND OF MALTA

ON TRANSPORT SHERIDAN ENROUTE TO MANILA.

Two Thousand Strong March in Review Before the Governor—They Made a Splendid Appearance and Were Cheered by a Large Concourse of People.

London, March 9.—[Special]—A dispatch from Valletta, Island of Malta, says the troops on the United States transport Sheridan, which arrived there yesterday, en route for Manila, landed there today, two thousand strong and marched in review before the British governor. The Americans made a splendid appearance and were cheered by a large concourse of people.

Tacoma, Wash., March 9.—A dispatch from Vancouver gives an interview with Capt. Fraser of London, who has just arrived there from Manila, regarding Admiral Dewey's physical condition. The captain tells an alarming story. He says:

"The war at Manila will have to end soon, or the life of the great American admiral will be worth nothing. I dined with him at Manila within a month, and I am convinced that if he is not relieved of the terrible strain imposed upon him he cannot last a month longer. As he sat at the banquet table, surrounded by his staff, he looked to me like a dying man. His hair is snow white, his face ashen, and he ate hardly anything."

"I had the pleasure of a few minutes' conversation with him when we retired to the smoking-room."

"Having in mind his terribly enfeebled appearance, I asked the admiral if he thought of returning to America soon. He replied: 'I would like to, but my work is by no means finished here. When it is, and only then, will I return.'"

"I am thoroughly convinced that only the admiral's indomitable will has kept him up so long. The strain on him is terrible, and the climatic conditions have reduced him to a shadow. His officers and men worship him."

"As an English officer, and knowing the magnificent work he has done, I have the greatest admiration for him."

"One of his officers said to me just before I left Manila: 'The war will be ended by the admiral soon, or it will end him. No man can stand such a strain as he does in this climate and live long.'"

TO TAKE CHIEF.

Gen. Otis Ready for Aggressive Movement Against Aguinaldo.

Washington, March 9.—Within a week Gen. Otis, according to advices received at the war department from Manila, is expected to begin an aggressive campaign looking to the crushing of Aguinaldo's forces. The telegram from Gen. Otis about his plans indicate that he is ready to begin the movement, but it is the understanding of the military authorities here that he will not make his advance until Gen. Lawton arrives at Manila.

In his telegram to the war department from Singapore, Gen. Lawton said he expected to reach Manila early on the morning of March 10. He has with him on the transport Grant 1,600 regular troops. Gen. Lawton will assume command of the American troops in the field, leaving Gen. Otis more time to attend to governmental affairs, but Gen. Otis will still have supreme charge of all military movements in the Philippines.

Gen. Otis will make every effort to capture Aguinaldo. It is believed here that when that is accomplished the backbone of the insurrection will have been broken. The forward movement of the American troops under the immediate command of Gen. Lawton is expected to begin about March 15.

Troops Eager to Advance.

Manila, March 9.—Every man in Gen. Otis' army is more than eager for the order to move against the Philippines. The situation of the troops is well-nigh unbearable, and any change will be joyfully welcomed. Oppressive weather adds to the discomforts of the soldiers on the American line. The native sharpshooters, from well-hidden positions, and armed with modern rifles, using smokeless powder, continue their annoying tactics almost without interruption. This method of warfare is more wearing on the United States soldiers than the most dangerous active campaign would be. It is believed the troops will take the offensive before many days, as the nearness of the rainy season makes the time for active operations short.

More Troops for Philippines.

Washington, March 9.—The war department is busily engaged in preparing for service in the Philippines six regiments so assigned. The Ninth infantry will be the first fitted out. The Sixth infantry, now at Fort Sam Houston, Texas, will be the next. All troops to be sent to the Philippines have been equipped with 30-caliber Krag-Jorgensen rifles and smokeless powder, large quantities of which having already been shipped to Manila. Most of the volunteers sent to the islands have Springfield rifles, as it was not possible to supply them with the Krag when they left San Francisco. This has been a disadvantage, as many of the rebels have the longer range Mauser.

FAIL TO AGREE ON A SCALE.

Miners and Operators at Springfield Still Apart in Their Views.

Springfield, Ill., March 9.—The joint scale committee of the miners and operators was in session all day Thursday, but did not reach an agreement. The scale committee had nothing to report to the joint conference, so that body did not meet. The joint scale committee held another meeting at night, but nothing was accomplished, and the settlement of the existing difficulties is no nearer than when the joint conference was first called to order, over a week ago. At the meeting of the joint scale committee the operators offered a resolution to the effect that the joint scale committee recommend to the joint conference the reaffirmation of the last year's scale. The miners on the joint committee took the resolutions and amended them in several respects. The amended resolutions were presented at the conference, but were not acted upon. The resolutions as amended provide that the Chicago agreement be reaffirmed, that the operators grant the raise of 4 cents in the northern district and waive their right to arbitrate the machine differential.

The Illinois coal operators adopted an ultimatum, which will be delivered to the miners' convention today. They insist on last year's scale for pick-mining and arbitration to settle the question of machine differentials. The operators say that if the miners do not accept this they will go home without an agreement.

White Blames Germany.

Berlin, March 9.—United States Ambassador Andrew D. White, in an interview published in the Deutsches Wochenblatt, severely blames the German press for the present strained relations of the United States and Germany. He says that the articles and the American correspondence regularly printed in Germany grossly misrepresents American life and aims, and he furnishes a number of drastic samples to prove his point.

The movement in protest against American animosity toward Germany among German-American citizens of Chicago is a subject of much comment in Berlin and in the provinces, the majority of the German papers agreeing that the British press is largely to blame for the erroneous opinions prevalent beyond the Atlantic regarding Germany's purposes and ambitions. This, it is pointed out, is again evidenced in the present Samoan troubles.

The British Chancellor.

Lord Halsbury, the British Lord Chancellor, has held his high office for a longer period, under the several administrations of Lord Salisbury, than any Chancellor since the restoration, with the exceptions of Lord Hardwicke, Lord Thurlow and Lord Eldon. Of the twenty-eight judges who constitute the Court of Appeal and Chancery, Queen's bench and probate divisions, no fewer than nineteen were raised to their present offices during his Chancellorships, and a twentieth will soon be added. Of the fifty-five county court judges about one-half are his appointments.

The measure to have the state superintendent make an investigation as to the cost of the state furnishing free text books, was killed.

Chinese Advices Say the Emperor is Growing Worse—Kept Alive at Will of Empress Dowager.

Vancouver, March 9.—[Special]—Chinese advices say the emperor is growing worse, and is apparently kept alive at the will of Empress Dowager, who may decide to kill him any day. Li Hung Chang's recall from the Yellow River is accepted as an indication that the Empress Dowager fears a coup d'etat.

Funeral of Mrs. Stevenson

Bloomington, Ill., March 9.—The funeral of Mrs. Eliza Stevenson, mother of Adlai E. Stevenson, ex-vice president, was held Wednesday. The services were held at 3 o'clock at the Second Presbyterian church, Rev. D. C. Marquis, of Chicago, conducting them. A number of old-time hymns, the favorites of Mrs. Stevenson, were sung. She was a member of the Presbyterian church for seventy-eight years, having joined it at the age of 12. Mrs. Stevenson was laid to rest in Evergreen Cemetery, this city, in the family lot. The pall-bearers were six grandsons of the dead woman. A great many telegrams and letters of condolence have been received by Adlai Stevenson and other members of the family.

To Prevent Lynching.

Jefferson City, March 9.—The most original plan ever presented to a legislature to discourage lynching has been proposed in the house of representatives by Mr. Nicholas, the populist member from Nodaway county. His measure would have the sheriff arm prisoners who are threatened with lynching. Any sheriff or deputy failing to protect such prisoners shall be fined not less than \$500 or more than \$1,000, and shall be dismissed.

The late A. E. Rich did not leave a will and his property will be divided according to law.

"Orangeine" has always cured my headaches and neuralgia when all else failed.

### THE NEW NATIONAL GUARD

Will be Just as Good as Before the Boys Went to War.

"We are going to have a National guard that will be as good as it was before the boys responded to President McKinley's call for troops last April. We are reorganizing the guard throughout the state as fast as we can, but until the new law regulating the organization is passed at Madison, nothing can be done," said Col. Worthie H. Patton, assistant adjutant general of the W. N. G. Friday afternoon in conversation with prominent military men.

The guard will consist of three regiments, the First, Second and an extra battalion, and the battery and Light Horse squadron. That will make forty companies of infantry, just as it was before. The regiments will be organized on the regular army basis, twelve companies of three battalions. The First regiment is yet very incomplete, three companies, Racine, Darlington and Janesville, having refused to re-enter the guard.

### Twenty Lashes for Six Hairs.

A singular theft was tried by Mr. Beale, first-class magistrate, recently. Superstitious Burmans pull out the hairs of an elephant's tail for talismans, making rings out of them and other charms. One Nga Tun Lin went into an elephant's shed at Ahlone and pulled six hairs out of a bull elephant's tail, secreting them in his umbrella. The mahout challenged him and he promptly shook the hairs out of the umbrella. They fell on some straw, were picked up and put forward in evidence of theft. The man was convicted and sentenced to receive twenty lashes.—Times of Burma.

## ANXIOUS ABOUT BLAKELY

Oshkosh Base Ball Players Are In Doubt These Days.

Oshkosh is much puzzled these days to know if they can have a base ball team there this year.

An Oshkosh paper says: "Whether or not Blakely has been at liberty to come back has not yet been learned. The team last year did not prove a great success financially and it has had the effect of putting a quietus on the game for 1899. The team was not well patronized and it became necessary to raise subscriptions in order to liquidate the expenses. Later the game played on a co-operative basis but this also proved a failure. If an organization is effected this year it is possible that it will be done under different conditions than before and with a guarantee by business men, sale of season tickets or other assurances of support by Oshkosh citizens.

The noble army of self-supporting women find "Orangeine" a great help in their hours of suffering. Safely stops pain.

### TAYLOR VISITED POOR FARM

Also Inspected the County Jail and City Lockup.

Geo. W. Taylor, a member of the state board of control, of whom mention was made in last night's Gazette, spent yesterday afternoon in inspecting the county jail and city lock up and visiting the county poor farm.

Upon his return to the city last evening, Mr. Taylor stated that everything about the poor farm was in excellent shape and under very good management.

His visit to the county jail developed nothing new, as that institution has already been condemned by the state board of control, and which will be vacated upon the completion of the new jail, work upon which will be commenced this spring.

Mr. Taylor left the city this morning for Beloit.

A new feature of "T. & T." brand of Coffee is the air-tight cans in which it is packed. There is no chance for the strength of the flavor to escape.

### Town Menaced by Firebugs.

Carlinville, Ill., March 9.—Bunker Hill, a town of 1,500, was visited by a conflagration early Wednesday morning, which destroyed the business houses of C. J. Jacoby and John Sneed and badly damaged four other store buildings. The loss is \$50,000, with \$30,000 insurance. The fire originated in Sneed's dry goods store. Bunker Hill has had three disastrous conflagrations since last November, and recently Dr. Hayes, a prominent citizen, was sent to the insane asylum, the proofs being conclusive that he was guilty of arson. The citizens are terrified over the repeated calamities, which all appear to be the work of incendiaries.

### New Food For Invalids.

We have just received two articles that are extensively used in the sick rooms, and with invalids generally, foods that are highly recommended by physicians. Ambrosia and Nut Bromose, both of them nut products. Ambrosia makes fat and blood; one pound of it has as much nutriment in it as a pound of beef steak and can be taken by the weakest stomach. It melts in your mouth and agrees with your stomach. Comes at 40 cents per pound can. Nut Bromose is adapted to weak anemic persons, makes fat and blood quickly, and agrees with anyone. It takes the place of cod liver oil in consumption and wasting diseases. Is invaluable for infants and delicate women, a splendid article for weaned or hand fed infants. ## PLEASING EVENTS OF LAST EVENING

### FIRST PRESENTATION OF THE PASSION PLAY.

War Scenes of the Late War Were Also Shown—Ninth Attraction on the Y. M. C. A. Course, a Lecture by Vandellia Varnum, Subject, "Who Pays the Freight."

It was a small, but nevertheless appreciative audience that assembled at Myers Grand last evening to witness the first production of the Passion play.

Considerable difficulty was experienced in handling the new machine used in reproducing the pictures which caused many to become impatient by the performance dragging, which, as the operator said, will not be the case this evening, as the old machine will be used.

The moving pictures represented many impressive scenes from the life of Christ, his disciples and other ancient characters. The presentation is startlingly realistic and impressive and it was too bad there was any disappointment last evening, which no doubt will be avoided tonight.

The Passion Play proper was preceded by war views that were very interesting. With the old machine in use tonight, it is expected a much better production will be given.

### LECTURE COURSE ABOUT OVER.

The Topic of Miss Varnum's Lecture Was "Who Pays the Freight?"

The ninth attraction on the Y. M. C. A. lecture course was Miss Vandellia Varnum, A. M., of New York, who delivered a lecture last evening on the subject, "Who Pays the Freight?"

There was a very large audience present at the Y. M. C. A. auditorium to greet Miss Varnum, who lays claim to being the only woman lecturer on popular subjects in America. The speaker laid special stress on what she had to say on dress reform and physical culture, although, as she said, "I am not a hobbyist on either topic." Fashion was also severely criticised and the removing of the high hat with an ostrich garden on it, she said, was one of the improvements of the age. The widower, the lover and the duke were not overlooked by Miss Varnum. Living without purpose or plan was one of the freight bills. She said she had rather be a home maker than to wear the richest crown of a kingdom.

Miss Varnum has many original ideas and although she did not have a powerful voice she held the attention of the audience to the end.

The tenth and last attraction on the course will be a gymnastic exhibition by local talent.

### WHITESIDE'S "THE RED COCKADE"

At Myers' Grand Next Tuesday Evening, March 14th.

Manager Myers is indeed fortunate in securing this notable attraction at the Grand next Monday evening, March 14th and the house should be packed to the utmost capacity.

"The Red Cockade," Mr. Walter Whiteside's new romantic comedy-drama is a translation from the French of M. Ponsard, the great Parisian playwright. "Lion Amoureux," which is the French title of the play, has for the past two years been considered the best piece at the Theatre Francaise. It is said the play abounds in thrilling situations, the period in which the action takes place offers splendid opportunities for exquisite costuming.

### MANTELL, THE ROMANTIC ACTOR

Coming Friday Evening in His Grand Production of "Monbars."

The eminent romantic actor, Robert Mantell, will be at Myers Grand next Friday evening in his grand production of "Monbars." The story is a French one of the First Empire period; picturesque, romantic and powerful. Of all Mr. Mantell's repertoire, "Monbars" has been the ladies' favorite. D'Ennery the author, wrote "The Two Orphans," "Celebrated Case," and many other melodramas of that school, but in all he never pictures such a hero as Robert Monbars.

### Mr. Gillette's Stoicism

On the night of the Baldwin Theatre Fire in San Francisco, when the "Secret Service" property and manuscripts of Mr. Gillette's new play were destroyed, his dresser rushed to his hotel and banged loudly on the door.

"Who's there?" drawled Mr. Gillette. "Me," answered the excited dresser. "Well, what do you want?"

"Oh! Sir, the Baldwin Theatre's all burned down, and so's the Hotel."

"Anything the matter with this Hotel?"

"No, Sir."

"All right; come around tomorrow morning about 8 and tell me all about it."

Mr. Gillette also remarked on another occasion: "Orangeine is a wonderful remedy. It aids my nerves, stomach and liver," and prominent physicians, who have tested it, the formula, call it a wonderfully useful combination of curative agencies."

### Two Thousand People Drown.

Vancouver, B. C., March 9.—Details of a terrible storm, which visited Corea recently, stated that 2,000 people were drowned by a tidal wave at Kung-san. At Oshenulpo bodies were washed ashore by the score. The bay was strewn with wrecks.

Baby sleeps and grows while mamma rests, if Rocky Mountain Tea is given. It's the greatest baby medicine ever offered loving mothers. 35 cents. Smith's Pharmacy, kodak agents.

## WOMEN DELEGATES HERE

Stopped Over On Their Way Home From Beloit Today.

Twenty-five women, on their way home from Beloit where they attended the Women's Federation convention yesterday, stopped over in Janesville this morning to view the sights of the city.

One of the most important questions discussed yesterday was that of women on the state board of control. The discussion of the bill for the appointment of two women as members was opened by Mrs. C. W. Raun, of Beloit, who told of the beginning of the movement at Oshkosh eighteen months ago. Mrs. A. J. Pierce, of Racine, followed with an argument in favor of putting women on the board, holding that there were many phases of life at the state institutions that women can better understand than a man.

By a rising vote the convention endorsed the bill.

"Orp" has no terrors for those who know "Orangeine." Relieves and cures.

## LATE NEWS BY TELEGRAPH.

## ENDORSE CHICAGO PLATFORM.

Michigan Democrats and Allies on Record in State Convention.

Kalamazoo, Mich., March 9.—The Chicago platform was reaffirmed by the democratic and allied parties assembled in one convention at the Academy of Music, with Justin R. Whiting as chairman. In his speech, though, Mr. Whiting laid down the battle cry as one against trusts.

After endorsing the Chicago platform, the resolutions denounce the "conspiracy to retire the greenbacks and place the issuing of money in the hands of the banks"; denounce the legislation which supports trusts; favor a state income tax, and declare that railroads and like corporations should pay their just share of taxation. In regard to the recently acquired territory the convention resolved that a government should be established which will lead to the self-government of the people.

The candidates for supreme judge whose names were presented to the convention were Thomas E. Barkworth of Jackson, Allen B. Morse of Ionia, Thomas O'Hara of St. Joseph and Quincy A. Smith of Adrian. Mr. Barkworth was nominated on the first ballot, receiving 452 votes, and Mr. Morse 320, the others withdrawing. Edwin J. Legendre of Calumet and Stanley E. Parkhill of Owosso were nominated for regents of the university.

## Mill Men Threaten to Strike.

Chicago, March 9.—A strike of furnace-men and helpers at the South Chicago mills of the Illinois Steel company is threatened for the coming week. About 1,100 men are involved in the present dissatisfaction, which has grown out of the recent advance in wages to the workmen employed at the various plants of the steel company at Joliet, Bay View and South Chicago. The furnace-men claim they and their helpers have been neglected in the distribution of good things, hence their present attitude.

Lansing, Mich., March 9.—The Michigan crop report for March, issued by the secretary of state, is based on the reports of nearly 1,000 correspondents from all parts of the state. A special feature of the report is the information relative to the damage to the fruit crop, which is declared to have been very great.

## Oklahoma Suffrage Bill Delayed.

Guthrie, O. T., March 9.—On account of a wrangle in the Oklahoma council over other measures, the woman suffrage bill was not taken up. Gov. ## Chicago Live Stock Markets.

Chicago, March 8.—Values showed some gain in each branch today, trade all along the line having much stronger tone than that noted at this time last week. Many good medium cattle sold 5@10c higher, or nearly 25c higher than during the last half last week, while the best fed steers showed little if any gain. Hogs sold 5c higher, but demand was not very urgent at that gain, though the run was 10,000 smaller than one week ago today. Sheep and lambs sold rapidly and strong at 10c higher, a good share at only firm prices, while many of the more desirable lots went 5@10c higher than earlier this week. Today's receipts, estimated at 13,500 cattle, 23,000 hogs and 15,000 sheep, make 30,143 cattle, 78,870 hogs and 51,995 sheep for the first half this week, against 31,174 cattle, 108,474 hogs and 45,637 sheep for the same period last week, and 34,400 cattle, 82,287 hogs and 56,095 sheep same period last year.

## Argentines Want All Land.

New York, March 9.—A dispatch to the Herald from Buenos Ayres, says the Argentine-Chilean commissioners have not yet arrived at a settlement of the Puna de Atacama question, as the Chileans wish to divide Puna de Atacama between the two countries, while the Argentines maintain their right to the whole territory, which Bolivia, the rightful owner, surrendered to Argentina. Therefore the question will undoubtedly be submitted to the arbitration of United States Minister Buchanan. The general boundary question will be determined by Queen Victoria, as public opinion in Chile is opposed to a direct understanding between the two governments.

## Grip Hangs On.

Unless the poisons deposited in the system by the germs of La Grippe are quickly and thoroughly driven out at the beginning they will continue to sap the vitality and waste the nerve force of the body until the strength gives away and the victim is overcome by nervous prostration and collapse. Ancient methods of treatment are no longer recognized as competent to treat this tenacious disease; but there is a remedy which never fails to give relief so long as there is vitality left to build on. It is Dr. Miles' Nerve, a nerve food and vitalizer of unequalled value in all cases of grip or its terrible after effects. Headache, backache, nervousness, dizziness, loss of appetite, inability to sleep, and nervous prostration all yield before its wonderful soothing, strengthening and vitalizing influence.

"La Grippe left me terribly afflicted with neuralgia, sleeplessness and stomach trouble which soon developed into nervous prostration and I was a complete wreck. When our home physicians failed to help me I went to Grand Rapids for help, but they gave me up to die. Began taking Dr. Miles' Nerve and was benefitted from the first dose. In a few weeks I was well and now I can do as much work on my farm as ever I could."

JOHN F. MISNER,

Cedar Springs, Mich.

A trial package of Dr. Miles' favorite treatment for La Grippe, consisting of Dr. Miles' Restorative Nerve, Dr. Miles' Anti-Pain Pills, and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples, and mentioning the name of this paper address.

Menominee, Mich., March 9.—A. W. Blom, who has just returned from New York, is associated with eastern capitalists in the purchase of 20,000 acres of mineral and timber lands in Houghton, Keweenaw, Baraga and Marquette counties for a consideration of over \$700,000. A corporation is to be organized with a capital stock of \$5,000,000. Prospectors are at work to have the copper mines located, and capitalists will build railroads from Rockland, Mich., to Keweenaw point, traversing these lands. By this a new timber and mineral belt will be opened up.

## Spaniards Ask for Protection.

Havana, March 9.—A Spanish newspaper publishes a story to the effect that a party of armed Cubans is terrorizing the Spaniards at Mayori. It says also that these Cubans have murdered several Spaniards near Barajagua, and mentions cases of the persecution of Spaniards at Calabazas, province of Santa Clara. In conclusion, the newspaper asks the American authorities to inquire into the matter and to afford protection to the Spaniards.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and, in a short time cured. I am happy to say that it has not since returned.—Joah. Edgar, Germantown, Cal. For sale by Peoples' Drug Co.

## A LONG RECORD.

Probably the oldest postmaster by length of continuous service in the United States was Elijah Watson of Rushville, Buchanan county, Mo., who has resigned his office because of feeble health.

Watson was commissioned in 1853, under President Franklin Pierce. Rushville is an old town, but hasn't grown much. When Watson took the office it paid only \$10 a year; now it pays but \$250, which may be one reason why Uncle Life was left for nearly half a century in peaceful possession.

When Watson was appointed, the town of St. Joseph, fifteen miles to the north, was a trading post; now it has 80,000 inhabitants. Atchison, five miles west, was unbroken prairies. Rushville had the start of both places because it was steamboat headquarters on the Missouri, and bade fair to become an important town during the boom days of the fifties. It was then known by the name of Columbus.

Columbus was a mighty lively town in those days.

However, when Kansas was opened and the anti-slavery and pro-slavery

ELIJAH WATSON.

parties were pouring in to fight for its control, Columbus very quickly became an effete eastern town, and the railroads, pushing on into Kansas, made river transportation a minor matter. For that matter, the river itself deserted Rushville and now runs about three-quarters of a mile from the seven brick stores that were once the town's chief pride.

The railroad station is a quarter of a mile from the postoffice, and Uncle Life used to have the contract for carrying the mails from office to station and back again. He kept his office in a little box eight feet square in the end of a general store. Behind the

few pigeon-holes was barely room for Watson to stand; there was no chair. He didn't need any. During lulls in a business which was not very lively he sat on a soapbox outside and discussed universal affairs.

Watson is a Jacksonian Democrat, who would not vote for Cleveland, but who, in 1896, traveled all the way to Lincoln to see Bryan. He is approaching his eighty-third birthday. He joined in 1845 a colony bound for the "Platte Purchase" and bought a claim near Rushville. Watson's photograph was shown in the postoffice exhibit at the World's Fair as that of the oldest postmaster. He has been married sixty years, and his wife is still living. An effort will be made to get for him a government pension.

## Almost Incredible.

A watchmaker recently accomplished a remarkable mechanical feat—that of drilling a hole through the entire length of a common pin from head to point, the opening being just large enough to admit of the passage of a fine hair. The same mechanic cut a sewing needle in two lengthwise, and then drilled holes and fastened it together so closely and nicely that the split could not be seen with the naked eye.

## To Kill Rats by Disease.

The discovery is announced in a preliminary communication by Dr. Issutchenko of Russia, of a microbe pathogenic to rats. An epidemic having broken out among the rats kept for experimental purposes in the government agricultural laboratory, a bacillus was isolated from the liver and spleen of affected animals that proved excessively fatal to rats and mice. Experiments in making the organism useful as a living rat poison have not yet, however, had an encouraging success.—Popular Science Monthly.

## FENNER KIMBALL'S REMAINS INTERRED

SERVICES WERE HELD THIS  
AFTERNOON.

Rev. Robert C. Denison, Assisted By  
Rev. E. H. Pence, Officiated From  
the South Second Street Home—  
Death of Mrs. Burr Jackson and D.  
T. Kenyon, Pioneer Residents.

Services of an impressive nature were held this afternoon at 2:30 o'clock over the remains of the late Fenner Kimball from the South Second street home. Rev. Robert C. Denison of the Congregational church assisted by Rev. E. H. Pence of the Presbyterian church officiated. Friends who had known and loved this noble man for many years filled the home and the tokens of love in the way of many costly offerings were many and beautiful. Mr. Kimball was a man who made friends of all and his coming into the world has made it just so much better.

He was a man who loved his home and family and his good deeds were many. At the close of the services, the remains were tenderly laid to rest in Oak Hill cemetery. Members of the Masonic order were present in large numbers. The services at the grave were conducted by Janesville Lodge No. 55 F. and A. M., of which Mr. Kimball was an active member. The pall bearers were intimate friends as follows: John Thoroughgood, George G. Sutherland, Charles B. Conrad, O. F. Nowlan, W. F. Carle, E. W. Lowell, I. C. Brownell and Frank W. Douglas.

Mrs. Burr Jackson.  
As the result of grip and pneumonia, Mrs. Burr Jackson died, yesterday afternoon, at 5 o'clock, at her home, 107 North River street.

Mrs. Jackson was ill four weeks, and her death will be mourned by many. She was a native of Norway. She was born in Stavanger, in that country, seventy-one years ago. She came directly from Norway to Wisconsin, in which state she has resided for half a century, the most of the time being spent in this city. Forty-three years ago she was married to Burr Jackson, the ceremony being performed in this city. Mrs. Jackson was not connected with any religious denomination, but she always attended the First Presbyterian church, of this city. She possessed a kindly disposition and was greatly beloved by a large circle of friends. Besides a husband, two sons survive her, Bey C. and Harry P. Jackson, both of this city.

Funeral services will be held from the home tomorrow afternoon at 3.

Mrs. Margaret M. Jepson.  
Another old resident of this city, Mrs. Margaret M. Jepson, has passed away to that other city, whose builder and maker is God. Mrs. Jepson was born August 1, 1826, in Lewiston, Maine, and came to Janesville 1862. She died at her home, 212 Jackson street, this morning at 10:30 o'clock, of kidney trouble. For many years she has been connected with the Baptist church and was loved by all who knew her. She leaves two children, Mrs. J. P. Wright, of this city, and A. L. Jepson, of Chicago.

The funeral services will be held at the residence Saturday morning at 10 o'clock, being conducted by Rev. Arthur C. Kempton. Personal friends are invited to attend.

D. T. Kenyon.  
At the county farm yesterday at 1 o'clock, D. T. Kenyon died as the result of heart trouble.

Mr. Kenyon made Janesville his home for many years, and was esteemed by all. He was seventy-four years of age, and was for years a member of the Independent Order of Odd Fellows.

## MASONS TO VISIT MILWAUKEE

Local Order Will Be Well Represented  
There This Month.

Janesville will be well represented in Milwaukee this month at the thirty-sixth annual convocation of the Wisconsin Consistory to be held in the Masonic temple, on Jefferson street, on March 20, 21, 22 and 23, for the purpose of conferring the Scottish Rite degrees from the fourth to the thirty-second, inclusive.

The Wisconsin consistory now numbers more than 1,000 members, residing in all parts of the state. Meetings for the purpose of conferring the degrees are held annually and semi annually. Since the last meeting, held six months ago, there have been eight deaths among the members, one of which was the late M. Harrington, of this city.

## THEY WANT SPRING SHOOTING

Local Hunters Ask That All the Sports-  
men Be Treated Alike.

Local sportsmen are much interested in a petition now being circulated against the feature of the game law introduced in the legislature, which prohibits spring shooting of all kinds of ducks. The hunters are willing to admit that the prohibition would be a good thing if all the northwestern states would adopt it, and this was the idea when the move was started, a uniform game bill having been prepared at a meeting of game wardens of the northwestern states, but it is said that the bill as introduced in the Illinois legislature permits shooting up to April 15. As the ducks will have passed on north by that time, such a law would have little effect. Many signatures are being secured to the petition.

## KLEIN A SUCCESS AT THAWING PIPES

MANY SAID DIRECT CURRENT  
WAS NO USE.

Didn't Shake the City Electrician's  
Faith in His Plan, and He Has  
Proved the Soundness of His  
Argument By Practical Demonstration.

Electrician Henry Klein is entitled to much credit for his work in thawing out Janesville water pipes. He is steadily at work and is making rapid progress. In fact the Janesville electrician has developed new methods in this line of work.

Professor Jackson declared in the beginning that the direct current could not be used in thawing pipes.

Electrician Klein studied the Janesville situation and said that he could do the work in this city with direct current.

There was a good deal of doubt expressed but the Janesville man wasted no time in talk. When he was finally able to get current and apparatus he went to work and is progressing rapidly.

He has done far better than was expected. Even those most confident of his success doubted whether he could thaw out the I. C. Brownell service where a long inch and a half service pipe is used. The electrical equipment was supposed to be good for three quarter inch pipes but nothing larger.

The Brownell pipe was cleared, however, in just twenty five minutes and the modest little electrician said nothing more than:

"Well, come on, let's tackle the next one."

Henry Klein seems to be all right.

## OFFICERS ARE ELECTED

Street Railway Company Enjoyed a Good  
Business Last Year.

At a meeting of the stockholders of the Janesville Street Railway Company, the following officers were elected for the ensuing year:

Directors—Geo. M. McKoy, F. S. Winslow, W. T. VanKirk and James Shearer.

The amount of business last year amounted to 7,613 which is far in advance of that of 1897. This is owing to the cars running through the present winter.

The line is now enjoying a good business and from now on till the summer is over is sure to increase its earnings.

Talks a Hole in a Board.

Mr. Edison has devised an instrument for talking a hole through a plank, says the Washington correspondent of the Boston Transcript.

This sounds like a joke, but it is a fact, nevertheless, and it affords one of the most interesting illustrations of the power of sound waves. When the wizard was in Washington a while ago an examiner of patents spoke to him casually on the subject, and, struck by an inspiration, he sat down and drew a sketch of the apparatus in question, which consists primarily of a diaphragm, a ratchet and a toothed wheel.

When one talks to the diaphragm, its vibrations cause the wheel to revolve, and through the familiar contrivance called a "worm gear" a gimlet is turned, which bores its way through a board. Indeed, the device here described has been patented by Mr. Edison, but not for the purpose above described. It appears in the records of the patent office as a contrivance for winding a clock.

Valuable Engravings.

The most valuable engravings in the world are the four impressions of Rembrandt's portrait of a man leaning on a saber. The fourth was recently sold for \$10,000. The original plate made by Rembrandt was cut down first to an octagonal oval and the pictures from it sold for \$120. Then it was sliced off still more and the prints sold for \$12, but of the original plate only four prints mentioned exist.

## TO STOP RUNAWAY MARRIAGES

Assemblyman John M. True, of the Wisconsin legislature, has recently

loomed into prominence in the northwest on account of the effort which he is making to stop elopements from Chicago to points in Wisconsin. He says that the evil is of daily occurrence and that unless some measure is enacted toward breaking it up, it is bound to demoralize the social life of the state. Mr. True is the president of the state agricultural board and is engaged in representing his constituents for the

second time in the Wisconsin legislature. He says that easy marriages in Wisconsin must stop.

When Part of the Audience Slept.

The great French playwright and novelist, Dumas, upon one occasion found a man asleep in the theater Francois during the performance of a play by his friend Soumet. "You see that?" said he; "that's your work."

Next evening a Dumas comedy was played. The two friends looked in again and found a sleeper. "You see, dear Dumas," said Soumet, "your works can produce sleep." "Do you refer to that man?" replied Dumas. "Why, that's the man who was there last night. He's not awake yet!"

Why He Was Sure.

"Are you sure you love her?" asked his close friend. "Absolutely," answered the young man. "I've been her partner at whist when she forgot what trumps were and didn't lose my temper."—Washington Star.

## IS THE DAMAGE LAW TOO HARD ON CITIES?

JANESVILLE ATTORNEYS ON  
BOTH SIDES.

Mayor Thoroughgood and Attorneys Burpee and McElroy Argue for the  
Wheeler Bill Repealing Personal Injury Statutes—Attorney M. G. Jeffris Will Argue Against It.

Steps are being taken at Madison, to discourage the "damage suit industry." Janesville attorneys are divided in the matter.

One side had a hearing before the legislative committee yesterday afternoon and the other side will be heard next week.

City officials took up most of the time before the committee yesterday afternoon. The need of a change in the statutes was set forth by Mayor Thoroughgood, City Attorney Burpee and Attorney Horace McElroy. City Attorney Runge of Milwaukee, and Attorney Weed of Oshkosh, appeared in the same connection. They spoke in behalf of Mr. Wheeler's bill repealing the personal damage statute and putting actions back under the common law. They declared that unless this were done every city in the state would soon be bankrupt, as no amount of precaution could keep sidewalks in such shape as to prevent people from falling down if they could get \$5000 for the fall.

Nobody appeared yesterday to argue against the Wheeler repeal measure, but the committee was notified that Attorney M. G. Jeffris of Janesville, wished to speak against the repeal, and Chairman Keene announced that another hearing would be given next week.

TRYING TO CIVILIZE AFRICA.

New Scheme for Abolishing Slavery in the Dark Continent.

July 10 last I started for the interior of Africa, where, on the high tablelands, 500 miles from the coast, I am building model villages. Here, in the heart of the dark continent, I am introducing to the natives the first stages of civilized life, and by systematic effort starting the civilizing of this part of the country. The villages are being built on what are now wild wastes of land. No expedition, however large, will ever be able to stamp out slavery in Africa by force, for the very reasonable fact that it is extremely unlikely that any expedition will ever be sent here of large enough proportion to successfully cope with 250,000,000 natives who believe in this ancient and baneful custom. (The plan I am working upon for the civilizing of this great continent, or at least a part of it, is different from anything before tried. In substance, it is the acquirement of fertile lands by cession from European governments and by purchase from native chiefs. Upon these lands I am building model villages and towns, composed of free native settlers and liberated slaves. Quality rather than quantity is aimed at. Such villages, when completed, will at once radiate good influence, and will be object lessons to all the dark regions around. As soon as the natives see for themselves how much easier and more profitable life is under civilized methods of living, than under their savage customs they quickly move to the villages and become a part of them. In joining the village they have to renounce slave hunting, polygamy, witchcraft and rum. This, I think, from my experience with them, many thousands of them will very readily do when they see for themselves how well the villages get along without any of these evil influences to which they have been accustomed. The natives, although barbarous, are quick to learn and are great imitators. When once shown how to do a certain thing they remember it, and make good workmen. They are strong and able-bodied and capable of accomplishing great results when started on the right track. The first of these villages is being established between Benguela and Lake Nyassa, in the southwestern part of the continent. High tablelands exist in this region, and here 5,000 feet above the sea level, the town is being laid out. The climate is healthful and the soil is particularly good. As quickly as possible each village will be made self-supporting. The natives are being taught house building, farming and various industries and trades. All the members of my expedition fare much the same as the natives—eating the same food and living in houses built of native materials. But soon we shall teach the natives improved methods of agriculture and the cultivation of all the new products necessary for the maintenance and development of the village.

## VOLUNTEERS TO COME HOME.

resident intends to Recall Them  
All from Abroad.

## 5,000 WILL LEAVE CUBA.

second, Fourth and Ninth Illinois  
Among Those to Be Back by May 1  
—Regulars Are to Stay in Our New  
Possessions.

Washington, March 9.—The volunteers in Cuba will be brought home as rapidly as the government transports can carry them. The administration has little fear of trouble when the Cuban army is paid off and disbanded by Gen. Gomez. This will be soon accomplished, as paymasters are now on their way to Havana with the \$3,000,000 agreed upon with Gen. Gomez, and it is believed that in a few weeks the Cubans who have been under arms fighting for independence will return to private occupations, satisfied of the sincerity of the United States.

The president believes that the Cubans will settle down to the work of rebuilding their fortunes by peaceful pursuits, if left largely to themselves, with only a small body of United States regulars there to preserve order and carry out the commands of Gen. Brooke while the United States remains in control.

There are about 25,000 volunteers in Cuba now, and the work of disbanding the volunteer army will begin by bringing the troops home to be mustered out. The volunteer troops now on garrison duty in Cuba, not hitherto ordered mustered out, include the following organizations: Second Illinois, One Hundred and Sixtieth Indiana, Fourth Illinois, One Hundred and Sixty-first Indiana, Ninth Illinois, Forty-ninth Iowa, Third Kentucky, Thirty-first Michigan, Second Louisiana, Sixth Missouri, Eighth Massachusetts, Twelfth New York, First North Carolina, Third Nebraska, Second South Carolina, Fourth Tennessee, Fourth Virginia, First Texas, Sixth Ohio, the Second and Third United States volunteer engineers, the Second and Fifth United States volunteer infantry, and the Second, Third, Eleventh, Twelfth, Thirteenth, Fifteenth, Sixteenth and Seventeenth companies of the signal corps.

## WILL NOT ISSUE BONDS.

Government Is Able to Pay Its Obligations Without Borrowing Money.

Washington, March 9.—Senator Allison and Representative Cannon, the respective chairmen of the senate and house committees on appropriations, had a conference with Secretary Gage Thursday, in which the condition of the government finances were discussed in view of the large appropriations made by congress during the closing week of the session. Mr. Cannon said this afternoon that the result of a thorough examination of the situation was to show clearly that the government will be able to pay its obligations for the present without borrowing money.

Secretary Gage said he was confident that it would not be necessary to issue bonds, at least for some time.

## Kipling Continues to Gain.

New York, March 8.—Rudyard Kipling is so much improved that it is expected he will be able to sit up in a week. It is probable that at that time he will be moved to other apartments. He is now in the third week of his illness from pneumonia. Mr. Kipling has not yet been informed of the death of his daughter Josephine, whose funeral took place Tuesday.

## Britain's Huge Naval Budget.

London, March 9.—The Times says: "We understand that the navy estimates will show an increase for the ensuing year of nearly £3,000,000 (\$15,000,000) over last year's total, and will reach almost £28,000,000 (\$140,000,000). It is proposed to add between 4,000 and 5,000 men. The largest share of the increased expenditure, however, is for shipbuilding, repairs, and the like."

## MAY ADJOURN BY APRIL 14.

Republican Senators in Illinois Figure on a Date to Finish Work.

Springfield, Ill., March 9.—The republican senators in caucus have determined to bring about the final adjournment by April 14, if possible. A resolution to that effect will be adopted by the senate to-day, but it is hardly probable that the house will acquiesce in such an early date. It is thought that May 1, or somewhere about that time, will be agreed upon as a compromise.

The senate passed, among others, the following measures: Hunt's bill providing that school funds may be loaned at a rate of interest not less than 5 per cent—yeas 35. May's bill to allow independent military companies to parade with arms upon receiving permission from the governor—yeas 40.

Bills were introduced as follows: Hamilton—Three bills to allow women to vote for all candidates for offices not created by the constitution. Also a bill providing that, where the theft of engine journals or other appliance from trains results in loss of life, the thief shall be chargeable with murder. Also a bill to exempt the capital stock of jobbing companies from assessment by the state board of equalization.

In the house, by unanimous consent, the following bills were introduced: Fuller—Amending the law in relation to the commitment and detention of lunatics by providing that a trial for lunacy shall be by jury only. Albertsen—To enable cities and villages to buy or construct waterworks and to levy an annual tax and pledge the same in payment therefor. Carstens—Providing that territory containing more than 250 inhabitants may be detached from a city and formed into a separate city or village.

The senate bill repealing the gas frontage act was read a first time and referred to the committee on municipal corporations.

The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.
